WHAT IS THE MAC?

The Mitcham Angling Club (MAC) was first established in 1923. With a rich history and friendly environment, we love our fishing.

With a diverse group of members that target a wide range of species both locally and interstate (even overseas) we thrive on building a better fishing community through knowledge and equality.

Fishing trips are organised throughout the year and vary in species to suit both conditions and the anglers attending. These are a great way to target your favourite species, or even better learn something new!

WHAT WE DO

- ▶ Regular trips both freshwater and saltwater
- ▶ Quarterly fishing talks by some of the best and well known guest speakers in these fields
- ▶ Regular competitions and social activities
- ▶ We live and breathe fishing and are always happy to chat at the club.

Through the regular trips, the myriad of tips and tricks from active members and most of all from the fishing talks by the best, MAC is the place to be to help your time on the water be as effective and enjoyable as it can be!
